This study aims to determine the effectiveness of Village Fund Management and its impact on village development in Lama Village, Hamparan Perak District, Deli Serdang Regency, and to identify obstacles in Village Fund management and its impact on development in Lama Village, Hamparan Perak District, Deli Serdang Regency. This study used qualitative methods, collecting data through documentation and interviews with village officials involved in Village Fund management. Data analysis used effectiveness techniques and Effectiveness Ratios.

The results indicate that Village Fund Management in Lama Village, Hamparan Perak District, Deli Serdang Regency, has generally been running well and in accordance with statutory provisions. The planning stage was implemented systematically and participatory through village deliberations involving village officials, the Village Consultative Body (BPD), and community representatives. In 2022, 2023, and 2024, Village Fund management in the Old Village was effective, with the ratio between 90% and 100%. In 2022, it was 97.59%, in 2023, it was 97.51%, and in 2024, it was 99.36%, as stipulated in Ministry of Home Affairs Decree No. 690.900.327 concerning effectiveness ratios. However, in 2025, Village Fund management in the Old Village was found to be less effective, with the effectiveness ratio reaching only 68.65%, below the Ministry of Home Affairs' requirements.
