ACKNOWLEDGEMENT

First of all, I would like to thank the Almighty Allah SWT for giving me the blessings to finish this thesis. I would like to thank the Prophet Muhammad SAW for shining the path of righteousness on which I try my best to live my life on. Second, I would like to thank the Dean of the faculty **Dr. Purwanto Siwi, M.A.** because without his permission, I would not have been able to do this research, let alone finish it. Third, I would like to express my undying gratitude to both of my supervisors **Dr. M. Manugeren, M. A.** and **Purwarno, S.S., M.A.** for their tireless support and the much-needed guidance for me to finish this thesis, hoping their good intentions are eternally well rewarded by the Almighty.

Next, I would like to thank my late parents because without their love and compassion, I would never have dreamt to be where I am today because they are the pillars upon which I plant my feet steadily on, I would never forget their advice in times of grief and wisdoms and joy. To extend my gratitude, I would like to thank both of my older brothers and all my relatives for giving me support and providing me with the helps that God knows I desperately need. May Allah bless us all so we can gather once more in Jannah.
