This illegal logging crime has become a crime that has extraordinary impacts, is organized, and cross-country. The Pidie Jaya Resort Police in handling Illegal logging, what are the obstacles and efforts of the Pidie Jaya Resort Police to uncover cases of criminal acts of Illegal logging and how to overcome them.

The research method used is descriptive analysis which leads to normative juridical and empirical juridical research, namely research conducted by referring to legal norms, namely examining library materials or secondary materials and field research. Primary and secondary data by processing data from primary legal materials, secondary legal materials and tertiary legal materials.

Illegal logging crime regulation according to Article 78 of the Forestry Law, Article 82 to Article 109 of the Law on Prevention and Eradication of Forest Destruction which is a special regulation in the context of enforcing criminal law against crimes in the forestry sector in general and especially illegal logging crimes. The handling carried out by the Pidie Jaya Resort Police in handling Illegal logging is by taking preventive actions, namely giving appeals to the public, providing legal counseling and increasing the quality and quantity of police human resources, while repressive efforts are carried out by the Pidie Jaya Resort Police in the context of eradicating illegal logging crimes. is to catch perpetrators of illegal logging, carry out illegal logging operations that aim to break the chain of illegal logging activities on the mainland.

The result of the research is that the obstacles of the Pidie Jaya Resort Police in uncovering cases of illegal logging are internal obstacles, namely the weak mentality of law enforcement officers and the lack of facilities and infrastructure in investigations. External obstacles, namely the lack of coordination between the local community and law enforcement, the confusing statements of suspects. As for the efforts made by the Pidie Jaya Resort Police in overcoming obstacles in investigating illegal logging crimes, namely approaching the community, coaching the community, training the firmness of law enforcement officials, completing facilities and infrastructure in investigations, and giving severe sanctions to those who violate them both ordinary people or persons involved

Keywords: Law Enforcement, Crime, Illegal logging
