Penelitian ini membahas penerapan metode *talaqqi* dalam pembelajaran kitab kuning di Madrasah Al Qismul 'Ali Al Washliyah Medan. Fokus penelitian diarahkan pada proses pelaksanaan *talaqqi*, faktor yang memengaruhi keberjalanannya, serta dampaknya terhadap kualitas belajar siswa. Hasil penelitian menunjukkan bahwa *talaqqi* membantu siswa meningkatkan kemampuan membaca teks Arab tanpa harakat, memahami makna dasar, serta memperbaiki makhraj dan struktur bahasa. Interaksi langsung antara guru dan siswa membuat proses koreksi berlangsung lebih efektif. Namun pembelajaran masih menghadapi kendala berupa perbedaan kemampuan siswa, keterbatasan waktu, dan kurangnya dukungan media pembelajaran. Secara keseluruhan, metode *talaqqi* memberikan kontribusi positif terhadap kualitas belajar siswa, meskipun penerapannya membutuhkan penyesuaian agar hasilnya lebih merata dan optimal.

ABSTRACT

This study examines the implementation of the talaqqi method in the learning of classical Islamic texts (kitab kuning) at Madrasah Al Qismul 'Ali Al Washliyah Medan. The research focuses on how talaqqi is conducted, the factors that influence its application, and its impact on students' learning quality. The findings show that talaqqi helps students improve their ability to read unvowelled Arabic texts, understand basic meanings, and refine pronunciation and linguistic structure. Direct interaction between teacher and students enables more accurate correction during learning. However, challenges remain, including differences in students' abilities, limited learning time, and a lack of supporting media. Overall, the talaqqi method positively contributes to students' learning quality, although adjustments are needed to optimize and equalize results.
